

BRIGHT PROSPECT.

Vegas to be Lighted by Gas Before Many Months

Mr. D. H. Ireland who has just finished the gas works in Santa Fe arrived in the city yesterday afternoon and spent some hours in looking over the city.

He expressed himself as very favorably impressed with Las Vegas and states that he was happily disappointed in finding such a busy bustling town. In fact he was so well pleased with the city that he considered it safe to make a far better proposition to the gas company than that which he first offered.

It was his opinion that this would be a better point for gas (illumination gas) than Santa Fe even and if the contract can be made, and there is no doubt it can be satisfactorily made and the county commissioners grant the franchise he will be ready to begin work upon his return from the east in a little more than a month from now. He held a long conference with the gas company, and everything is moving on smoothly. We have every assurance, therefore, that before many months Las Vegas will be lighted by gas.

The details of the plan cannot now be made public, but the readers of the GAZETTE will be duly informed on the subject whenever we are at liberty to publish them.

Desperate Round-Up.

Deputy Sheriff Pat Garrett of Lincoln county sent in yesterday for a large supply of ammunition to be poured into the gang of desperadoes should they be foolish enough to resist his posse of determined men. He is now recruiting a force, and giving his old men and their animals a chance to rest up when the campaign will be opened again with renewed vigor. He has telegraphed the sheriff at Fort Griffin, Texas, that he has the man at his elbow, and claims the \$1,500 reward offered for him, for his party. This message undoubtedly gave rise to the rumor that the notorious Dave Rudabaugh had been captured, as it is said that he is wanted in Texas, as well as in several other states. The man whom Garrett has invited the Texas sheriff to send for is Frank Clark who is charged with being a fugitive murderer. Our latest advices state that the worst members of "the Kid" band are still at large but their capture is merely a question of time. The company thus far engaged in the round-up has been too small for really effective work, as many men are needed for scouting, and in self preservation and to insure success it is necessary that a large posse be on hand to be the better prepared to cope with the outlaws.

Still another cause for the suspension of hostilities was the unavoidable delay of reinforcements. As was stated, the party waited at Ft. Sumner after taking in the gang captured at Bosque Grande expecting Frank Stewart and his Panhandle boys to join them and were considerably surprised that they did not report on time. All this time Frank Stewart was in Vegas waiting for supplies and was kept here longer than he expected as he was obliged to wait for corn, the supply in the city having been entirely exhausted. He got away, however, on Friday and with twenty men, well armed and equipped to remain in the field for several weeks. The White Oaks has her quota or men in good condition and with these combined forces the country will be effectively scoured and the whole gang taken in.

The following from one of the most enterprising news bureaus in the East shows conclusively how much interest is felt throughout the East in the future of New Mexico. "The great interest manifested in New Mexico at present, and the East to that as yet undeveloped territory next year, creates a demand for information relative to its resources and attractions. That our patrons may have that information at first hands and correct; we have sent one of our correspondents to that Territory, and he will furnish a series of letters from the different points of interest."
